Blackboard Collaborate using Surface Pro 4 Pen Features

Date Published: Jan 04,2016 **Category:** Product:Web_Conferencing_Help_and_FAQs; Version:Web_Conferencing **Article No.:** 000059599

Product: Collaborate - Web Conferencing

Document Type: User Documentation

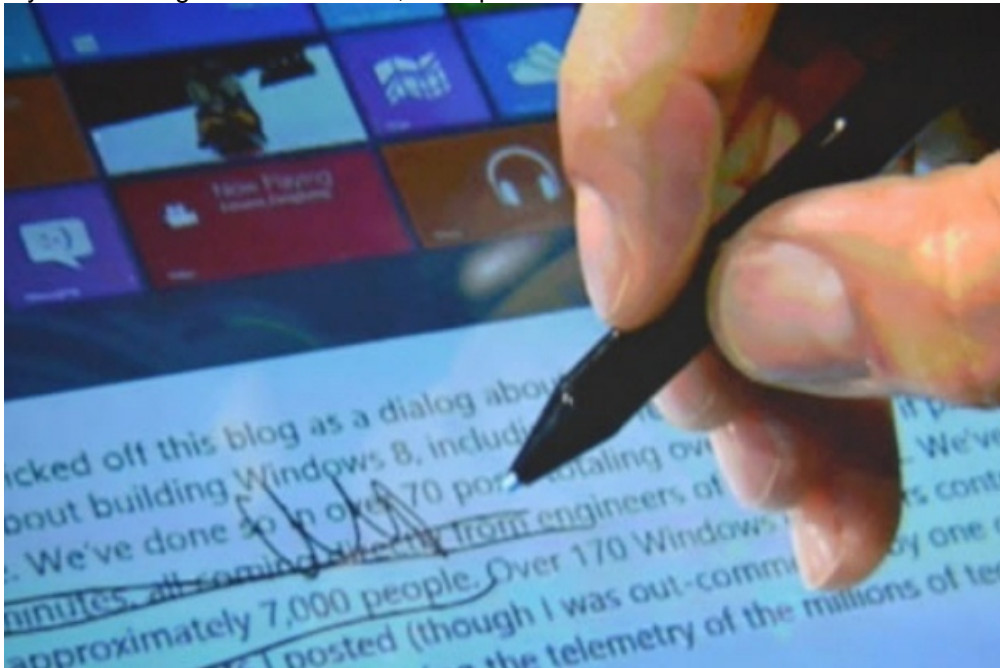

Document Summary: Using the Pen features on a Surface Pro 4 during application share in Blackboard Collaborate Web Conferencing sessions.

Participants are unable to see "Pen Feature" notation if a Moderator is application sharing a single application.

Information:

Description

If you are using the Pen features, example:

If you are ONLY sharing out a particular application, that application is all that is visible, the extra ability of viewing the written content from the stylus is considered an extra "overlay" application.

In order for the stylus notation to be visible the user will need to share Entire Desktop instead of the single application.
