Multiple Attempt Grades for Groups Not Showing After the First Attempt is Graded

Date Published: Mar 28,2024 **Category:** Planned_First_Fix_Release:Future_Reference; Product:Course_Tools_Learn; Version:SaaS **Article No.:** 000078529

Product: Blackboard Learn

Release: SaaS

Service Pack(s): SaaS

Description: In a group assignment with multiple attempts, if the grade for the first attempt is posted, the grades for the other attempts will not be visible for the students.

Steps to Replicate:

1. Login to **Blackboard learn** as an administrator or instructor
2. In an Ultra course go to the Groups tab, create a **New Group Set** and a couple students
3. Create two assignments each with two attempts and visible to students
4. In the assignment 2 assign groups and add the group created previously
5. Login as a student and complete the first attempt for each assignment
6. As the instructor grade the first attempt i.e. 10 points, add feedback and post the grades
7. As a student check the grades and feedback then complete the second attempt for each assignment
8. As the instructor grade the second attempt i.e. 20 points, add feedback and post the grades
9. As a student observe the grades

Observed Behavior: For assignment 1 the grades for all attempts are visible, feedback is also visible. For assignment 2, the one with the groups, the final grade is 20, the grade for the first attempt is 10 but the second attempt appears as ungraded except feedback is available.

Expected Behavior: After the grades are posted students should see the results of all following group attempts.

Target Release: Future Reference
